business description:

Garbagna means cherry, known simply as Bella. Elda and Ugo Gentile, expert beekeepers, are focusing on the excellent cherry honey, with a pleasant taste and amber colour. The other products branded "Miele di Garbagna" include the single flower honey of acacia, lime and chestnut. Comb honey, useful against bronchitis and colds, and honeydew honey, with a pleasantly unique taste, are both fine types of honey. One of our favourite artisan farms.
